

INNOVATION BY SELO.

**NEW**

**Pre-assembled** Pocket Doors

Installation has  
never been  
so easy!

Pocket Doors  
**Installed In  
10 Mins!**

Our Pocket Door systems are now available pre-assembled to reduce your installation time...

We understand the potential challenges of installing pocket doors, which is why we're making it easier by offering kits to suit your structural openings. The doorset arrives on-site as a complete pre-assembled kit, ready to install.

The only on-site requirements are the project specific ironmongery and trims.

#### FEATURES

All structural elements are cut-to-size, ready to install

Minimum waste created during installation process

Complete installation in just 10 minutes!

Removes potential risk of incorrect cuts or installation

## INSTALLATION

Pre-assembled pocket doors are quick to install...  
Simply cut the trims to suit and fit!

### Order

Order your sliding pocket door based on the structural opening size, we'll do the rest!

### Install

The system is delivered on-site **ready to install**, simply cut the trims to suit the finished opening.

### Decorate

Once the kit is installed apply **tape, joint and decorate**.
